Sr. No.	Information Sought	Proposed Reply
1	Number of employees in each PSU under PH category (Including those below eligibility criteria for reservation like Polio below 40%) in each organisation along with their nature of job. I have observed certain cases where PH category people are deployed in certain jobs which require physical strength and they have to undergo lot of strain in delivering their duties. But when their performance is measured bosses are comparing PH category people with normal people.	No centralized data is maintained on the number of employees in each Physical Handicapped (PH) category along with their nature of job in a Central Public Sector Enterprise (CPSE).
