#### **Strategic Issues**

BCCL was registered as a sick company in 1995 with the Board for Industrial and Financial Reconstruction (BIFR). Company's networth had become positive in view of capital restructuring in 1997 and it came out of BIFR. However, the networth again became negative by 1999-2000 resulting in compulsory reference to BIFR on 13.1.2001. A Revival Plan prepared by BCCL in consultation with various stakeholders was submitted to BIFR. However, in December, 2004, the Board for Reconstruction of Public Sector Enterprises (BRPSE) came into existence inter alia to consider the cases of sick CPSEs. Accordingly, a modified rehabilitation scheme was submitted to BRPSE during 2005-06 which was remitted back to the M/o Coal for additional information / modification of the proposal, etc. BCCL appointed a consultant for review and appraisal of projections and underlying assumptions of revival package. The report submitted by the consultant was approved by BCCL board on 21.4.2006 and forwarded to M/o Coal. As considerable time had elapsed since the submission of the report, the Govt. desired the report to be updated. Accordingly, an updated revival plan involving infusion of additional funds by CIL in the form of debt, waiver of existing unsecured loans, closure of unviable underground (UG) mines and infusion of new machinery into its fleet were submitted

to BIFR / BRPSE in June, 2009. BIFR approved the revival scheme on 28.10.2009.

#### **Vision / Mission**

The Vision of the Company is to emerge as one of the best cement companies committed to contribute to the economy and to enhance value for the stakeholders.

The Mission of the Company is to augment the wealth creation for the Company, deliver superior product and sustained value.

#### **Industrial / Business Operations**

CCI is engaged in manufacturing of cement through its 3 operating units at Bokajan, District Karbi Anglong in Assam, Rajban, District Sirmaur in Himachal Pradesh and Tandur, District Rangareddy in Andhra Pradesh.

7 of its units at Adilabad in Andhra Pradesh, Mandhar and Akaltara in Chattisgarh, Nayagaon in Madhya Pradesh, Kurkunta in Karnataka, Charkhi Dadri in Haryana and Delhi Grinding Unit in Delhi are non operating. All 6 Units except Adilabad were closed with effect from 31.10.2008 and VSS / closure compensation was given to all the Supervisors and workman. VSS / Closure at Adilabad could not be implemented as the matter is pending before the Hon'ble High Court of Andhra Pradesh.

The physical performance of the Company during the period 2007-08 to 2009-10 is shown below:

Product	Unit	2009-10	2008-09	2007-08
Cement	LMT	9.68	9.56	9.09

#### **Strategic Issues**

The plants of the Company are more than 20-30 years old and no substantial technological upgradation / modernization work could be done earlier due to sickness of the Company resulting in production loss besides increase in the production cost. The upgradation / modernization works could not be undertaken due to delay in sale process as the required funds for the purpose were envisaged to be available from the sale proceeds of the non-operating units. The Qualified Interested Parties had certain apprehensions regarding transfer of mining leases which had expired and settlement of outstanding statutory liabilities. The matter was accordingly taken up with the concerned State government of Karnataka, Madhya Pradesh and Chhatisgarh. The Government of Karnataka has already waived off interest and penalties on outstanding dues of Royalty and Sales Tax and therefore principal amount of ₹ 6.62 crore has already been paid. Final decision of the State Governments of MP and Chhatisgarh is awaited in this regard. Further action will be taken accordingly.

#### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the opposite page.

The Company registered a reduction of ₹ 0.85 crore in total income during 2009-10 which went down to ₹366.73 crore in 2009-10 from ₹ 367.58 crore during 2008-09. The net profit of the company however increased to ₹ 52.75 crore, an increase of ₹ 0.20 crore over the previous year despite the sluggish market conditions and huge capacity additions by private cement manufactures.

Under the implementation of the 2nd phase of the Scheme, CCI has already acquired the land at Silchar for Silchar Grinding Unit and land leveling works has been completed. ## 7.2 Fertilizer Corporation of India Ltd.

Fertilizer Corporation of India Ltd. (FCIL) was incorporated on 0.1.01.1961 by merging Sindri Fertilizer & Chemicals Ltd. (formed in 1951) with Hindustan Chemicals & Fertilizer Ltd. (HFC) (formed in 1959). The company was again reorganized in 1978 when it was split into five companies namely FCIL itself, Rashtriya Chemicals & Fertilizers Ltd. (RCF), HFC, National Fertilizer Ltd. (NFL) and Project & Development India Ltd. (PDIL).

FCIL is a schedule-'B' BIFR referred sick CPSE in Fertilizers sector under the administrative control of M/o Chemicals and Fertilizers, D/o Fertilizers with 100% shareholding by the Government of India. Its registered office is at New Delhi and corporate office at NOIDA Uttar Pradesh.

#### **Industrial / Business Operations**

FCIL was involved in manufacturing and marketing of fertilizers from its four units at Sindri (Jharkhand), Gorakhpur (U.P.), Ramagundam (A.P.) and Talcher (Orissa). However, due to continuous losses incurred the company became sick and based on the recommendation of the BIFR for winding up, the Government decided to close down and offer Voluntary Separation Scheme (VSS) to its employees. Accordingly, all the establishments have been closed and there are no operational activities since the year 2002. The activities at plants are restricted to security arrangements and settlement of dues of employees.

#### **Strategic Issues**

FCIL was referred to BIFR on 20.4.1992. After a series of hearings, BIFR recommended for its winding up vide orders dated 17.05.2004 and forwarded the same to Registrar, Delhi High Court for taking further action as per Companies Act, 1956. The Hon'ble Delhi High Court took cognizance of the same and registered it as CP-183 of 2004. The High Court issued notice to all parties and vide orders dated 04.05.2006 granted time to examine its revival and present a scheme of revival.

In compliance to the above, FCIL appointed M/s PDIL to prepare a Techno-Economic Revival Proposal for all of its units. PDIL prepared techno economic feasibility study that was filed in the High Court (HC).

Further, the company submitted a detailed plan for revival to BRPSE, which after examining, recommended the same. Based on the recommendations of the BRPSE, the Government approved 'in principle' the revival of the company. The HC vide its order dated 14.05.2007 granted liberty to the company to move appropriate application before BIFR for getting order (dt. 17.05.2004) reviewed. The company and Department of Fertilizer are in the process of seeking further recommendations from Empowered Committee of Secretaries (ECOS) for detailed parameters of the revival.

PUBLIC ENTERPRISES SURVEY 2009-2010 155

## 10.10 Hindustan Cables Ltd.

Hindustan Cables Ltd. (HCL) was incorporated on 04.08.1952 with the objective of making the country self reliant in the manufacturing and supply of various types of telecommunication wires and cables.

HCL is a Schedule-'B' / BIFR/BRPSE referred CPSE in Medium and Light Engineering Sector under the administrative control of M/o Heavy Industries and Public Enterprises, D/o Heavy Industry with 99.60% shareholding by the Government of India. HCL is a listed company but its shares are not traded. Its Registered and Corporate Officers are at Kolkata, West Bengal.

#### **Industrial / Business Operations**

HCL is engaged in manufacturing and supply of telecommunication jelly filled cables, optic fiber cables and telecom turnkey services through its 5 operation units, at Burdwan and Narendrapur in West Bengal, Allahabad in U.P. and Hyderabad in Andhra Pradesh. It also has one R&D centre in Hyderabad.

The product range of the company comprises of two segments namely Telecom Cables and Turnkey Projects. The Performance details of major products during last three years are as follows:-

		Production During		
Major Product	Unit	2009-10	2008-09	2007-08
Turnkey Activity (Sales)	₹ Cr.		1.23	2.08
Jelly Filled Cables	LCKM		Nil	Nil

#### **Strategic Issues**

In the absence of orders at remunerative price and advance, the operations in al the units of the Company have been totally stopped. Due to introduction of various wireless services, there has been a drastic reduction in lying of Jelly Filled & Optical Fibre Cables in external plant network of BSNL/MTNL. Thus, the chances of getting purchase orders from BSNL/MTNL at remunerative price along with advance is very remote. Various project like FRLS cables and instrumentation and control cables, high count optical fibre cables, power cables using XLPE technology, HDPE tarpauline and HDPE pipe may be considered for product diversification if external fund support is provided to the Company.

#### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the adjoining page.

The Company registered an increase of ₹ 2.58 crore in total income during 2009-10 which went up to ₹ 2.21 crore in 2009-10 from ₹ (-)0.37 crore during 2008-09 due to receipt of other income and adjustment in stocks of the company. The net losses of the company increased to ₹ 459.32 crore, an increase of ₹13.95 crore over the previous year.

The increase in losses is attributed to increase in finance charges the and provisions made during the year. The reasons for falling performance are attributed to absence of orders from BSNL, disproportionate employee cost and non-availability of working capital. As such, production in all the

units has come to a halt.

During the year, the Company received a non-plan assistance of ₹ 59.90 crores for payment of wages and salaries. The Company has availed of a cumulative Government Guarantee of ₹112 crore as on 31.3.2010.

#### **Human Resource Management**

The enterprise employed 2389 regular employees (executives 327 & non-executives 2062) as on 31.3.2010. The retirement age in the Company is 58 years. It is following IDA 1997 pattern of remuneration. Details of employment in last 3 years are given below:

# 4.4 Hindustan Copper Ltd.

Hindustan Copper Ltd. (HCL) was incorporated on 9.11.1967 with the objective of taking over the assets and liabilities of Copper Projects at Khetri, Dariba, Rakha and Agnifundala from National Mineral Development Corp. Ltd. (NMDC). Indian Copper Complex Ltd. at Ghatsila, Jharkhand was acquired by HCL in March, 1972.

HCL is a schedule-'A' listed BRPSE registered Miniratna CPSE in other Minerals & Metals Sector under the administrative control of M/o Mines with 99.59% shareholding by the Government of India. Its Registered and Corporate offices are at Kolkata, West Bengal.

#### **Vision / Mission**

The Vision / Mission of the Company is to optimise utilisation of natural resources for national benefit and to be an efficient and viable economic entity.

#### **Industrial / Business Operations**

The major activities of the company are exploration, mining, benifiation, smelting, refining and production of cathodes and CCR as saleable products. It also recovers various by-products associated with copper ore. The entire marketing operation of all its products is carried out by the company directly.

HCL has 4 operating units at Ghatsila district Singhbhum (E) in Jharkhand, Khetrinagar, district Jhunjhunu in Rajasthan, Malanjkhand district Balaghat in Madhya Pradesh and Taloja district Raigad in Maharashtra. The company has Branch offices at Delhi, Mumbai, Bangalore and Indore. The physical performance of Company for last three years is given below:

Main Products	Unit	2009-10	2008-09	2007-08
Ore	'000 T	3205	2983	3245
Metal-in-concentrate	Tonnes	28202	27,589	31,378
CC Wire Rod	Tonnes	41,999	51,777	58,223
Cathodes	Tonnes	17,516	30,036	44,734

#### Strategic Issues

HCL with production capacity of 49,500 tonnes per annum continues to be the only vertically integrated primary copper producer having its own captive mines. HCL has a competitive advantage by virtue of its having captive mines in the country. As a result of significant growth in refined copper production capabilities, India has become a net exporter of refined copper as opposed to its earlier position when bulk of its refined copper requirements had to be met through imports. As a strategic measure, HCL has stopped the import of copper concentrate and as a consequence the smelter at Khetri Copper Complex (KCC) was shut down with effect from December 2008. HCL is now operating only one smelter at Ghatsila giving full thrust on capacity utilization and on mining at all its mines

#### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the opposite page.

The Company registered an increase of ₹ 190.26 crore in total income during 2009-10 which went up to ₹ 1395.05 crore in 2009-10 from ₹ 1204.79 crore during 2008-09. The net profit of the company increased to ₹ 154.68 crore, an increase of ₹ 164.99 crore over the previous year loss of ₹10.31 crore due to improvement in performance of mining and increase in LME price of copper.

There was loss of production for about one and a half month at Malanjkhand Copper Project (MCP) due to water shortage. The shortfall in Cathode production was on account of continued shut-down of the Smelter Plant at KCC during the entire financial year and shortfall in CC Wire rod production was as per availability of in-house raw material (cathode) as the company stopped procurement of cathode from outside for conversion into Wirerod due to change in business model on economic considerations.

#### **Human Resource Management**

The Company employed 5300 regular employees (Executives 818, Non Executive 4482) as on 31.03.2010. The retirement age in the Company is 60 years. It is following IDA 2007 pattern of remuneration. Details of employment in last 3 years are given below:

# 7.4 Hindustan Fertilizer Corporation Ltd.

Hindustan Fertilizer Corporation Ltd. (HFC) was incorporated on 14.03.1978 after the re-organisation of Fertilizer Corporation of India Ltd. (FCI) / NFL group of companies with an objective to manufacture and market quality chemical fertilizers and by product.

HFC is a schedule-'B' / sick BIFR referred CPSE in fertilizer sector under the administrative control of M/o Chemicals and Fertilizers, D/o Fertilizers with 100% shareholding by the Government of India. Its Registered office is at New Delhi and Corporate office at NOIDA, U.P.

#### **Vision / Mission**

The Vision of the Company is to ensure steady growth in the business of the company to meet the future challenges.

The Mission of the Company is to manufacture and market quality chemicals fertilizers and by-products by optimum utilization of available resources of the company.

#### **Industrial / Business Operations**

HFC has three units at Durgapur and Haldia (East Midnapore) in West Bengal and Barauni (Begusarai) in Bihar. The company also has one Fertilizer Promotion & Agriculture Research Division. The Namrup units de-merge into a new company under the name of "Brahmaputra Valley Fertilizer Corporation Ltd. (BVFCL)" w.e.f. 1.2.2002,

As the operations of all these three units became technoeconomically nonviable, the Government decided to close the company in 2002. However, the Government reconsidered the matter and decided on 24.4.2007, in principle, to revive HFCL and directed the concerned Ministry to examine the feasibility of revival subject to confirmed availability of gas; and the need for a hard look at the prospects of revival in view of the factors that had led to the closure of the entities.

In view of the decision for closure of the Corporation, there were no production and marketing activities during the last seven years.

#### **Strategic Issues**

The company was referred to BIFR in the year 1992 and since then it is under BIFR. In compliance of BIFR's latest directives, an application was filed on 24.04.09 by the company in the BIFR for grant of permission for sale of old / obsolete / non-usable assets of Barauni, Durgapur and Haldia division as identified by PDIL through M/s MSTC and uses the sale proceeds for revival of units of HFCL.

As a sequel to Government's approval in principle for revival of HFCL plants, profit making fertilizer PSU's such as NFL, RCF, KRIBHCO and Feedstock PSU like GAIL, NFL have shown interest for revival of Barauni unit and RCF for Durgapur unit but have now expressed their inability to carry out the revival under the existing policy. The Empowered Committee of Secretaries (ECOS) decided that the revival of Barauni unit & Haldia division would be taken up in line with other units of Fertilizer Corporation of India Ltd. (FCIL) and HFC.

The company is registered with BIFR. BRPSE recommended for revival as a PSE on 13.6.2008 and the fresh funds required for revival of the company were to be arranged by HOCL from its own resources and / or through banks / financial institutions. HOCL has submitted a rehabilitation plan for HFL to BIFR. The company's shares are listed at stock exchanges of Hyderabad (HSE) and Mumbai (BSE).

# 12.4 Hindustan Newsprint Ltd.

Hindustan Newsprint Ltd. (HNL) was incorporated as a wholly owned subsidiary of Hindustan Paper Corporation Ltd. (HPC) on June 7, 1983 with the main objective of taking over the business of Kerala Newsprint Project, a unit of Hindustan Paper Corporation Ltd.

HNL is a Schedule-' B 'Miniratna' CPSE in consumer goods sector under the administrative control of Ministry of Heavy Industries & Public Enterprises, Department of Heavy Industry. Its Registered and Corporate offices are at Kottayam, Kerala.

#### **Vision / Mission**

The vision of the company is to operate large capacity Newsprint / Paper Mills on sound commercial principles and to continuously upgrade and upscale production output and enhance market share. The mission of the company is to be the foremost and largest producer of quality Newsprint

#### **Industrial / Business Operations**

HNL is engaged in production of standard Newsprint grades of 45 GSM and 48.8 GSM of quality from its single operating unit. The physical performance of Company for last three years are given below:

Major services	Units	2009-10	2008-09	2007-08
Newsprint	MT	100546	108005	116111

HNL meets a major portion of its requirement of fibrous raw materials from State Government forest sources. The Company also maintains Captive Plantations in about 2670 ha. of forest land obtained under lease from Government of Kerala.

#### Strategic Issues

The total abolition of Customs duty for imported newsprint since February, 2009 as well as the aftermaths of unprecedented economic slowdown witnessed indiscriminate dumping of newsprint from foreign markets at cheaper prices. The absence of any preferential treatment for the domestic newsprint industry added fuel to the already existing odds of the company.

#### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the opposite page.

The Company registered reduction of ₹ 100.89 crore in total income during 2009-10 which went down to ₹ 246.56 crore in 2009-10 from ₹ 347.45 crore during 2008-09. As against a profit of ₹ 12.64 crore in 2008-09 the company incurred a net loss of ₹ 48.03 crore indicating a decline of ₹ 60.67 crore over the previous year's profit due to fall in selling price of newsprint.

HNL has a share of about 16% of domestic newsprint production.

Further GOI has agreed to take over the assets and liabilities of Pension Fund Trust as on 1.4.2005 or to provide Grant-in-aid to the company for payment of pension.

As the restructuring package did not involve any cash flow to the yard, the yard was also not in the position to bear this expense. Since HSL continued to incur losses, the company was been referred to BRPSE. ### 10.11 HMT (Bearings) Ltd.

HMT (Bearings) Ltd. (HBL) was incorporated on 24.10.1964 under the Factories Act 1948 as Indo Nippon Precision Bearings Ltd. The project however, could not take off till Andhra Pradesh Industrial Development Corporation (APIDC) intervened and implemented it in the year 1970 in collaboration with M/s Koyo Seiko Co Ltd, Japan. The commercial production began in 1971. Production started with three lines one each for Ball Bearing, Taper Roller Bearing and Cylindrical Roller Bearing. The initial installed capacity was 11 Lac nos. per annum. The company was taken over by HMT Ltd. in the year 1981.

It is a Schedule-'C' sick BIFR/BRPSE referred CPSE in Medium & Light Engineering sector under the administrative control of M/o Heavy Industries and Public Enterprises, D/o Heavy Industry with its Registered office at Hyderabad and Corporate office at Karnatka. It is a subsidiary of HMT Limited which is holding its 97% equity shares.

#### **Strategic Issues**

Bearing is an essential intermediate engineering product. It supports radial and axial loads and minimises friction in moving parts. HMTB is present in BB, TRB & CRB in size range of minimum Inner Dia (ID) of 20mm to a maximum Outer Dia (OD) of 240mm. The initially collaborated design size range is only upto OD 120mm and the rest are developed through in-house efforts. The products are manufactured with normal (P-0) class which finds applications mainly in tractors, automobiles apart from other general engineering applications. The product range do not cover many of the applications for Railways which are normally having outer dia exceeding 240mm.

### **Performance Highlights**

### **Industrial / Business Operations**

IIFCL is providing long term financial assistance to various viable infrastructure projects in the country in terms of the Scheme for Infrastructure Financing. Apart from equity, IIFCL raises long term debt from the domestic market, debt from bilateral and multilateral institutions and in foreign currency through external commercial borrowings. The infrastructure projects include road and bridges, railway, seaport, airports & other transport projects, power, urban transport, water supply, sewerage, solid waste management, gas pipeline, projects in special economic zones etc.

In order to be eligible for funding under this scheme only a infrastructure project implemented by a Public Sector Company or Private sector company under Public Private Partnership (PPP) through a Project Company set up on a 'non resource' basis shall be eligible for financing by IIFCL.

The company has one off-shore wholly owned subsidiary namely IIFC (UK) Ltd. in London. The subsidiary would channel part of the foreign exchange reserves of the country for creation of infrastructure assets by way of lending to Indian companies implementing infrastructure projects solely for meeting their capital expenditure for import solely outside India. ## 6.6 Indian Oil Corporation Ltd.

Indian Oil Corporation Ltd. (IOC) was incorporated on 1.09.1964 by the merger of Indian Refineries Ltd. (established in 1958) and Indian Oil Company (established in 1959). In 1981 Assam Oil Co. Ltd. was also merged with IOC. The objective was to serve the national interest in oil and related sectors in accordance and consistence with Government policies, to ensure continuous and smooth supplies of petroleum products and to enhance country's self-sufficiency in oil refining.

IOC is a schedule-'A' / Maharatna CPSE in petroleum (Refinery & Marketing) sector under the administrative control of M/o Petroleum and Natural Gas with 78.92% shareholding of Central Government. Its Registered office is at Mumbai, Corporate office and Refineries Head office are in New Delhi. IOC was conferred with the 'Maharatna' status by the Government of India on 19th May 2010.

During 2009-10 the bonus shares were issued by the company in the ratio of 1:1.

#### **Vision / Mission**

The Vision of the Company has been articulated with two dimensions: (1) It envisages Indian Oil to be the Energy of India and (2) and to be Globally Admired Company. The aspiration of becoming a Globally Admired Company will be facilitated by initiating action on the six Vision elements: Ethics, People, Innovation, Environment, Technology and Customers.

#### **Industrial / Business Operations**

IOC is a major player in the field of petroleum refining, pipeline transportation of crude and petroleum products, marketing of petroleum products, research & development, blending and production of lubricants. In pursuit of creating a diversified business profile, IOC is steadily integrating its business downward into petrochemicals & upward into E&P. Besides this, it has entered in other energy fields such as biofuels, gas, winds, solar & nuclear.

IOC has eight refineries at Guwahati, Bongaigaon & Digboi (Assam), Barauni (Bihar), Gujarat (Koyali, Vadodara), Haldia (West Bengal), Mathura (U.P.) and Panipat (Haryana), with a combined capacity of 49.7 MMTPA (31.03.2010). Its marketing network is spread across the length & breadth of the country with over 35,000 (as on 31.03.2010) marketing touch points. IOC has a pipeline network of 10,541 KM. The Company has 6 subsidiary companies, of which 4 are outside the country & has 13 joint ventures (JVs) in the field of petroleum and petrochemicals. The two Indian subsidiaries are Indian Oil Technologies Ltd. and Chennai Petroleum Corp. Ltd. with a shareholding of 100% and 51.89% respectively. The physical performance of Company for last three years is given below:

Main Product	Unit	2009-10	2008-09	2007-08
Refinery Crude Throughput	MMT	50.70	51.37	47.40
Pipeline Throughput	MMT	65.01	59.63	57.12
Sale of Products	MMT	69.92	66.76	63.19

Indian Oil refineries achieved overall capacity utilization of 102% during 2009-10, against the average global refinery capacity utilization of 82%.

#### **Strategic Issues**

Indian Oil is augmenting its refining capacity by setting up a 15MMTPA refinery at Paradip at a cost of ₹29777 crore. The unit will be highly complex and configured to process 100% heavy, high-sulpur cheaper crudes for better profitability.

In recent years, the rapid growth in the Indian economy has increased its appetite for petrochemicals, but per capita consumption still continues to be way below the world average. IOC has been making investments to garner growth opportunities in this space and move up the petrochemicals value chain.

# 21.5 Indian Railway Finance Corporation Ltd.

Indian Railway Finance Corporation Ltd. (IRFC) was incorporated on 12th December, 1986 as a Public Financial Institution notified under section 4A of the Companies Act, 1956.

IRFC is a schedule – "B" / CPSE in the financial service sector under the administrative control of Ministry of Railways with 100% shareholding of Government of India. It's registered and Corporate Office is at New Delhi.

#### Vision / Mission

The Vision of the Company is to establish IRFC as a premier Financial Services Company, create synergies with the Ministry of Railways, select CPSEs & other entities for sustained growth in creation of Rail infrastructure and enhance shareholders value through optimization of profitability, retaining a risk profile consistent with its symbiotic relationship with the Ministry.

The Mission of the Company is to make IRFC one of the leading Financial Service Company in the country, for raising funds from the capital market at competitive cost for augmenting railway plan finances, duly ensuring that the Corporation makes optimum profits from its operations.

#### **Industrial / Business Operations**

Indian Railway Finance Corporation is the market borrowing arm of Ministry of Railways (MOR). The Annual Plan Outlay of MOR as indicated in the Railway Budget is met through three sources Internal Generation, Budgetary Support from the Ministry of Finance and Extra Budgetary Resources (EBR) Requirements. IRFC is a Special Purpose Vehicle set up to meet the EBR of the Indian Railways.

Each year, MOR notifies IRFC regarding the Annual Borrowing target. After receiving the annual borrowing target from MOR, IRFC taps both the domestic and overseas financial market and transfer the funds to MOR. The funds transferred by IRFC to MOR are used for procurement of Rolling Stock Assets including wagons, coaches and locomotives which are leased out to Railways through a 30 years financial lease agreement executed with them. Till date, IRFC has created Rolling Stock assets worth ₹ 60,163 Crore for Indian Railways.

#### Strategic Issues

The year 2009-10 posed a host of challenges to the borrowing effort of IRFC on account of the Steep increase in the annual borrowing target mandated by Indian Railways to the highest ever figure of ₹9,520 Crore in recent years. This resulted in Debt to Equity ratio reaching near the maximum permissible ratio 10:1 prescribed by the Reserve Bank of India.

Interest rate in the overseas market continued to remain firm on account of widening of spreads occasioned by risk aversion on the part of the foreign institutional investors who are yet to recover from the global financial turmoil.

#### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the opposite page.

The Company registered an increase of ₹ 459.16 crore in total income during 2009-10 which went up to ₹ 3483.94

crore in 2009-10 from ₹ 3024.78 crore during 2008-09. The net profit of the company correspondingly increased to ₹ 442.69 crore, an increase of ₹ 261.9 crore over the previous year.

The increase in profit is due to the discounting impact of higher provisions of deferred tax liability in the previous year, the adjusted Profit after Tax (PAT) for the previous year is ₹359.07 crore. The higher provisions of ₹178.28 crore towards deferred tax liability was made in the previous year due to the change in the accounting policy of treating MAT Credit as Deferred Tax Assets, which brought down the net profit last year.

#### **Human Resource Management**

The Company employed 19 regular employees (Executives 7, Non Executive 12) as on 31.03.2010. The retirement age in the Company is 60 years. It is following IDA 2007 and CDA 2006 pattern of remuneration. Details of employment in last 3 years are given below:

PUBLIC ENTERPRISES SURVEY 2009-2010

## 16.10 Jute Corporation of India Ltd.

Jute Corporation of India Ltd. (JCI) was incorporated in 1971 with the objective to ensure the reasonable price for jute growers for their produce by undertaking purchase of raw jute from the growers at the minimum support price.

JCI is a Schedule-'C' CPSE in Trading & Marketing sector under the administrative control of M/o Textiles with 100% shareholding by the Government of India. Its Registered and Corporate offices are at Kolkata, West Bengal.

#### **Vision / Mission**

The Vision of the Company is to promote genuine interest of jute growers in particular and jute economy at large through price stabilization effort and as a quality leader in the jute trade.

The Mission of the Company is to implement the policy of GOI for providing MSP to the jute growers of the country and undertake various extensive measures for implementation of different jute related projects.

#### **Industrial / Business Operations**

JCI is engaged in conducting purchase operations to ensure maintenance of minimum support price (MSP) of raw jute, undertaking commercial operations in a judicious manner by procuring raw jute at price above the MSP and to procure and maintain a buffer stock as and when advised by the Government i.e. to serve as a stabilizing agency in the raw jute sector through a wide network of 171 Departmental Purchase Centers, 16 Regional Offi ces in 7 Jute Growing States with Head Office at Kolkata. Since the corporation has been involved in price support mechanism for jute growers, no operational data is available.

The corporation receives subsidy in reimbursement of losses on price support account. While approving the financial restructuring of JCI, the Government (Ministry of Textiles) on 2.6.2005 decided to provide subsidy to JCI on a continuous basis from the year 2003-04 to set-off losses on account of MSP operation by the company. The quantum of subsidy is the difference between the purchase and sale prices of raw jute by JCI. While calculating the MSP losses, the reimbursement of overhead costs to JCI does not exceed 10% of the value of purchases under MSP in a particular financial year.

#### **Strategic Issues**

The volume of procurement of raw jute / turnover of the company solely depends on the market behavior as procurement is conducted when ruling price touches the Minimum Support Price (MSP) as declared by GOI. The raw jute price during 2010-11 is also expected to remain above MSP.

#### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the opposite page.

The Company registered a reduction of ₹ 150.37 crore in total income during 2009-10 which went down to ₹ 60.01 crore in 2009-10 from ₹ 210.38 crore during 2008-09. The net profit of the company reduced to ₹ 1.56 crore, a reduction of ₹ 90.52 crore over the previous year's profit. During the year there was very little carryover of stock as such there was no MSP during 2009-10. Even with good crop prospects because of overall shortage in supply as compared to demand there was no MSP as price remain above MSP.

During the year 2008-09, there was regularization of subsidy received during the period 2003-04 to 2008-09 amounting to ₹146.93 crore and included in total income. The substantial fall in total income during 2009-10 is mainly on account of this factor.

#### **Human Resource Management**

The Company employed 1021 regular employees (Executives 106, Non Executive 915) as on 31.03.2010. The retirement age in the Company is 60 years. It is following IDA 2007 and CDA 2006 pattern of remuneration. Details of employment in last 3 years are given below:

### 4.7 KIOCL Ltd.

KIOCL Limited was incorporated on 02.04.1976 under the Companies Act, 1956 with an objective to meet the long term requirement of Iron Ore for the steel mills of Iran. However due to political developments in Iran, Company diversified into Production and sale of Pellets. KIOCL Limited is a schedule –'A' Mini –Ratna CPSE in Mineral and Metal sector under the administrative control of Ministry of Steel with its Registered and Corporate office at Bangalore, Karnataka. Government of India holds 99% of its equity.

#### **Vision / Mission**

To strive to be an efficient organisation, committed to customer and stakeholders satisfaction.

#### **Industrial/Business Operations**

KIOCL Limited had engaged in mining of low grade Iron Ore, beneficiation of Iron Ore Concentrate, production and export of Iron Ore Concentrate at Kudremukh and Iron Oxide Pellets and also production and sale of Pig Iron.

Main Product	Unit	Production during (% Capacity Utilization)		
		2009-10	2008-09	2007-08
Iron Ore Concentrate *	Million Tonnes	-	-	-
Iron Oxide Pellets	-do-	1.273 (36)	1.316 (38)	1.927 (55)
Pig Iron (Blast Furnace unit)	-do-	0.062 (29)	0.118 (55)	0.157 (73)

\*production was stopped in pursuance to Hon'ble Supreme Court verdict w.e.f. 01-01-2006.

In pursuance of the directive of the Hon'ble Supreme Court, the mining activities at Kudremukh were stopped on 31-12-2005. Therefore, there was no production of Iron ore from 01-01-2006. Presently the Company is engaged in production and sale of Pellets and Pig Iron. Consequent upon switchover from magnetite ore from the captive mines at Kudremukh to Hematite Ore sourced from NMDC and other sources, the operations of Pellet Plant at Mangalore has been affected significantly.

#### **Strategic Issues**

In the absence of long term mining lease, no major projects were undertaken during the year 2009-10.

KIOCL has been making efforts to get mining lease in the States of Karnataka, Orissa and Jharkhand. But due to the petitions filed by various applicants, the matter remained subjudice in the High Courts of Karnataka and Orissa and in Supreme Court. The Company is also making efforts to get mining lease in the States of Kerala and Rajastan.

As per Mining Policy of various states, State Govt. clearly envisages that State is in favour of entrepreneurs establishing real value addition to Iron Ore. Such enterprises will be given preference in mine allotment. In this process the Company will be able to do forward integration by making its presence in the Steel sector. The process will also strengthen the Company's claim for obtaining mining lease. At this backdrop the Board of Directors have in principle agreed to set up a Integrated Steel plant on joint venture in the State of Karnataka.

#### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the adjoining page.

The Company registered a reduction of ₹ 508.33 crore in total income during 2009-10 which went down to ₹ 917.16 crore in 2009-10 from ₹ 1425.49 crore during 2008-09. The net loss of the company correspondingly increased to ₹ -177.27 crore, an increase of ₹ -199.28 crore over the previous year profit of ₹22.01 crores.

The target set for production during the year 2009-10 was 2.65 Million tonnes. Actual production was 1.273 million tonnes which is 48% achievement of the target. Similarly against a target of 2.65 million tonnes of Pellet for export during the year 2009-10 actual export was 1.456 million tonnes. The decrease in production and export of Pellets and consequent reduction in profitability was on account of depressed market condition with low demands for Pellets both domestically and internationally. The sudden and unprecedented worldwide recession in the second half of the year 2008-09 which continued till the end of 3rd quarter of 2009-10 has forced the Company to operate the Pellet plant intermittently. However, the price of Pellets has shown a sign of improvement from January 2010 onwards which has prompted the Company to improve the production. Further due to uneconomical price for Pig Iron, Blast Furnace Unit is shut down from 05-08-2009.

During the last quarter of 2009-10, the Company has made highest production and despatch of 7,00,000 MT and 6,78,682 MT respectively for the first time after the closure of its captive mine

#### **Human Resource Management**

A financial restructuring proposal as approved by Board for Reconstruction for Public Sector Enterprises (BRPSE) was approved by the GOI. As per the financial restructuring, the cost of debt provided by MoR together with interest accrued thereon, will be converted into preferential shares redeemable at the end of 15 to 20 years. The dividend payable will be non-cumulative at the dividend rate which MoR pays to GOI. Any future loans provided by MoR to KRCL will also be converted into non-cumulative redeemable preferential shares. The financial restructuring

will be restricted to three years i.e. FY 2008-09 to 2010-11.

#### **Performance Highlights**

#### **Strategic Issues**

After the global recession the prices of scrap is improving only slightly and that too very slowly. Technology advances have reduced dependency on scrap and also lowered the scrap availability, leading to reduction in trading volume of secondary items. Special emphasis is being given in the field of supply of imported coal to power plants and industries.

#### Strategic Issues

The activities of MTNL are confined only to two cities i.e. Delhi and Mumbai, it is not in a position to expand its telecom services beyond the area of jurisdiction. Reduction of tariff and ADC cut are costing MTNL dearly. The high level license fee is a big strain on the finances of the company, which is paid over and above other taxes and duties levied on all other businesses.

## 12.10 Nagaland Pulp and Paper Co. Ltd.

Nagaland Pulp and Paper Co. Ltd. (NPPC) was incorporated in 1971 with the objective to construct and manage a modern integrated pulp and paper mill at Tuli in Nagaland. The commercial production commenced in 1982.

It was incorporated as a Joint Venture between Government of Nagaland and Hindustan Paper Corporation (HPC). NPPC is a joint venture subsidiary of HPC Ltd. where-in, HPC holds 94.78% equity and Govt. of Nagaland holds 5.22% equity.

NPPC is a Schedule-'C' / BIFR referred CPSE in Consumer Goods Sector under the administrative control of M/o Heavy Industries and Public Enterprises, D/o Heavy Industry with its Registered office at Nagaland and Corporate office at Kolkata, West Bengal. The company is registered with BIFR since 1992 which earlier recommended 'winding up' of the company. However, based on the initiatives taken by the Government, the BIFR has sanctioned a revival plan on 29.5.2007.

#### **Industrial / Business Operations**

NPPC is basically a writing and printing paper producing company, but the production in its mill has been suspended since 1992 and since then there are no production activities due to escalation of project cost, non-performance of defectively designed coal-fired boilers, inadequate and erratic grid power, non-availability of feed, deficient infrastructure in transport / telecommunication, shortage of skilled man power etc.

#### **Strategic Issues**

The first revival scheme was sanctioned in 1994. However, the production could not be carried out due to lack of captive power generation at NPPC and as such the company was again referred to BIFR in 1998. BIFR had recommended winding up of the company in 2002 but (against the winding up orders of BIFR) the Government of Nagaland and NPPC filed an appeal before AAIFR which set aside the impugned order and remanded back to BIFR on 20.4.2006. The BIFR sanctioned revival scheme on 29.5.2007 envisaging a cash assistance of ₹ 302.95 crore comprising of ₹ 261.26 crore as equity, ₹ 38.19 crorre as preferential shares and ₹ 3.50 crore for VRS and non-cash assistance of ₹ 378.97 crore comprising of ₹ 125.98 crore as waiver of loan, interest etc. and ₹ 252.99 crore as Government guarantee.

A 30 year Tripartite agreement between Government of Nagaland (GON), HPC and NPPC was executed on May 25, 2006 to ensure availability of raw material (bamboo) within the State of Nagaland, handing over the bamboo growing 12676 hectares of GON purchased land to NPPC for undertaking captive bamboo plantation and exemption on payment of royalty on raw material.

The implementation of the Rehabilitation Scheme as sanctioned by BIFR, embarked upon by the company has been hamstrung by the wide variation in the price quotes by various bidders against the cost estimates as per the scheme, necessitating de novo updating of the Scheme itself with revised cost estimates.

#### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the opposite page.

The Company registered an increase of ₹ 0.86 crore in total income during 2009-10 which went up to ₹ 1.11 crore

in 2009-10 from ₹ 0.25 crore during 2008-09. The net loss of the company reduced to ₹ 14.38 crore, a reduction of ₹ 3.72 crore over the previous year's loss of ₹18.10 crore due to less expenditure on salary & wages and increase in other income.

#### **Human Resource Management**

The Company employed 317 regular employees (Executives 66, Non Executive 251) as on 31.03.2010. The retirement age in the Company is 60 years at board level and 58 years below board level. It is following IDA 1997 pattern of remuneration. Details of employment in last 3 years are given below:

The company also has one 50:50 Joint Venture namely Air India SATS Airport Services Private Ltd.

#### **Strategic Issues**

In view of consolidation of the global aviation environment, wherein critical/mass size is a key success factor, the Air India and Indian Airlines have been merged in a single company. Post merger, the new entity is expected to retain Brand Name "Air India" with "Maharaja" as its mascot. Along with size, the new entity is expected to create considerable synergy, since the two airlines can feed traffic to each other. The synergy benefits will be in the areas of route rationalization; fuel procurement; stores and inventory purchase both aircraft and non-aircraft; insurance benefits; handling of flights; and employee productivity. Besides, it could result in redeployment of aircraft since Air India and Indian Airlines are flying on some common routes in the Gulf and South East Asia.

#### Strategic Issues

On account of obsolete technology, poor productivity, excess manpower, the company' subsidiaries were referred to BIFR in the years 1992-94. BIFR sanctioned Rehabilitation Schemes for 8 subsidiaries in the year 2002-03 and the 9th Subsidiary, viz., NTC (TN&P) Ltd., Coimbatore, was given a separate Revival Scheme by Ministry of Textiles in October, 2001. The Revival Scheme was modified twice – first in May, 2006 and followed by another modification in September, 2008. As part of NTC's reorganisation, it is reducing the number of sick mills and focusing on the rest for modernisation. The Company identified 77 mills as unviable and closed them under the provisions of Industrial Disputes Act (I.D. Act), after following necessary procedures. During the year 2009-10, eleven units have been closed under ID Act.

40 mills are slated for revival – 22 directly by the Company and 16 (out of which 11 are under review) under joint venture partnership with private sector. 2 additional units of Tirupathi Cotton Mills and Coimbatore Spg. & Wvg. Mills are proposed to be modernized by NTC taking them out from JV list. During 2009-10 one mill, viz CS&W Mills, Kannur has been modernized. Thus, 18 mills have already completed modernization.

The company has also undertaken relocation of mills in order to speed up the modernisation process and better asset allocation. NTC has raised funds by selling its surplus land. (By disposing some of its assets, the Company has garnered ₹ 4153.52 crores as on 31.7.2010 under the Revival Scheme suggested by BIFR).

NTC will be turning itself from a spinning company to an integrated textile company consisting of spinning, weaving, processing and garmenting.

### 14.5 NTPC Ltd.

NTPC Ltd. was incorporated on 7.11.1975 as National Thermal Power Corporation Ltd. (NTPC) with the objective to augment the existing supply of power supplied primarily by State Electricity Boards and to provide power and power related products (and services) at competitive prices.

It is a schedule-'A' Maharatna listed CPSE under the administrative control of M/o Power with 84.50% shareholding by the Government of India. Its Registered and Corporate offices are at New Delhi.

#### **Vision / Mission**

The vision of the company is to be the world's largest and best power producer, powering india's growth.

The mission of the company is to develop and provide reliable power, related products and services at competitive prices, integrating multiple energy sources with innovative and eco-friendly technologies and contribute to society.

NTPC's primary business is power generation through coal based and gas based sources. The company has its presence across the country with 19 coal based and 8 gas based power stations, including 4 coal based and 1 gas based stations of its joint ventures. Over the time, its portfolio became diversified with ventures into hydro power, coal mining, power trading, power distribution, oil & gas exploration, etc. and therefore, the company rechristened itself as 'NTPC Limited' in 2005. NTPC is now venturing into nuclear, wind and solar power; equipment manufacturing, and providing services for R&M of power stations. On the global front, NTPC is exploring opportunities for acquisition of stake in coal mines and setting up of power plants abroad, besides offering international consultancy services. The physical performance of Company during the period 2007-08 to 2009-10 is shown below:

Main Product	Unit	2009-10	2008-09	2007-08
Generation of electricity	MU	218840	206939	200863

It has 5 subsidiaries namely NTPC Vidyut Vyapar Nigam Limited, NTPC Electric Supply Company Limited, NTPC Hydro Limited, Kanti Bijlee Utpadan Nigam Limited and Bhartiya Rail Bijlee Company Limited. Three of these subsidiaries are wholly owned and NTPC has controlling stake of 74% and 51% respectively in 2 others. The Company also has 17 joint ventures (JVs), with a shareholding of 50% in 10 JVs and less than 50% in 7 others.

#### **Industrial/ Business Operations**

NPCIL is engaged in design, construction, commissioning and operation of nuclear power plants. NPCIL generates electricity using nuclear energy through nineteen Nuclear Power Reactors with installed capacity of 4560 MW. These reactors are located at 6 sites namely Tarapur-Thane (Maharashtra), Rawatbhata-Kota (Rajasthan), Kalpakkam-Chennai (Tamilnadu), Narora-Bulandshahar (U.P.), Anumala - Surat (Gujarat) and Karwar - Uttar Kannada (Karnataka). In addition to nuclear power, NPCIL is also generating electricity from wind mill of installed capacity 10 MW at Kudankulam site.

Currently, NPCIL is constructing three nuclear power reactors, with an aggregate installed capacity of 2220 MW, Kudankulam Nuclear Power Project Units-1&2 (2x1000MW) and Kaiga Project Unit-4 (220MW). These reactors are under advanced stage of construction and likely to be in operation progressively by the year 2011. In addition, four indigenously designed pressurized heavy water reactors of 700 MW unit size, two reactors at each site -Kakarapar in Gujarat and Rawatbhata in Rajasthan, have been launched for construction in 2010. These reactors are slated for commercial operation progressively by the year 2016. On progressive completion of these ongoing and newly launched reactors, the installed nuclear power capacity will reach 6780 MW by the year 2011 and 9580 MW by the year 2016.

The Government has also accorded "In-principle" approval for five new green field sites – two inland sites at Fatehabad district in Haryana and Mandala district in Madhya Pradesh for setting up indigenously designed 700 MW PHWRs and three coastal sites at Bhavnagar district in Gujarat, Srikakulam district in Andhra Pradesh and Haripur in East Midanapur district in West Bengal for setting up Light Water Reactors (LWRs) of 1000MW or larger unit sizes. NPCIL has taken up pre-project activities at these new sites. In addition, the approval of Government is also granted for the expansion at the earlier approved sites - Kudankulam in Tamilnadu for 6X1000 MW and Jaitapur in Maharashtra for 6x1650MW. The works at these sites for setting up LWRs based on international cooperation have also been taken up.

The capacity utilisation during the year 2009-10 was 61% as against 50% during 2008-09. The company generated about 2.6% of the total electricity production in the country. The physical performance of Company during the period 2007-08 to 2009-10 is shown below:

#### **Strategic Issues**

Vision 2020 of Department of Atomic Energy envisages a nuclear power capacity of about 20,000 MW or more by the year 2020 by setting up of indigenously designed 700 MW PHWRs and 1000 MW or larger size LWRs based on international cooperation. The company is pursuing the mandate of expanding the nuclear power base in the country in accordance with the plans and schemes of the Government of India.

#### **Strategic Issues**

Government of India has introduced a Nutrient Based Subsidy (NBS) in place of product wise subsidy effective from 1.4.2010. NBS implies that subsidy amount payable to the Company will be fixed annually for each nutrient of the products sold based on the nutrient content. The nutrient based subsidy so decided would be converted into subsidy per tonne for each subsidized fertilizer. In the initial phase only DAP, MOP, MAP, TSP, 12 grades of complex fertilizers, Ammonium Sulphate (Caprolactum Grade) and SSP are proposed to be covered. Urea is not part of NBS now. Any variant of these fertilizers with secondary and micro-nutrients as provided under FCO would also be eligible for subsidy.

The Plants have been in operation for a very long time, some of them since 1965 by carrying out regular upkeep, maintenance and up-gradation. The complex fertilizers are based on imported raw materials which can face severe volatility in raw material prices and foreign currency exchange rate affecting the profitability of the company.

Agro-climatic conditions have a large effect on the performance of the Company. The chemicals business is highly susceptible to cut throat global market competition. The bringing of P&K fertilizers under the OGL may lead to greater imports. This is a real threat since Company is totally dependent on imports for its "K" requirements and about 90% of its "P" requirement. In case if the gas prices in the country are revised upwards such escalation needs to be borne by the company itself. The foreign raw material suppliers may benchmark their prices on the NBS rates. The other cost provided in the landed price of Urea, DAP and MOP have been retained at 2005-06 level. This may prove to be inadequate in the long run.

#### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the opposite page.

The Company registered a reduction of ₹2370.29 crore in total income during 2009-10 which went down to ₹5729.43 crore in 2009-10 from ₹8099.72 crore during 2008-09. The net profit of the company however increased to ₹234.87 crore, an increase of ₹23.29 crore over the previous year. The company could achieve substantial savings in interest and improved its profitability with better foreign exchange management.

The variation in performance is attributed to reasons like Fertilizer subsidy which constitutes a substantial component of turnover, cost plus subsidy resulted in reduced prices, Global recession affected the margins of Industry and Industrial products are under threat from cheap imports.

#### **Human Resource Management**

The Company employed 4351 regular employees (Executives 1601, Non Executive 2750) as on 31.03.2010. The retirement age in the Company is 60 years. It is following IDA 2007 pattern of remuneration. Details of employment in last 3 years are given below:

#### **Strategic Issues**

As the company has become sick in terms of SICA Act it has been referred to BIFR but BIFR declined to register due to lesser investment in the plant and machinery as prescribed.

The Salt manufactured by SSL needs up-gradation for chlor alkali industries. Sometimes the calcium and magnesium ratio of the salt produced does not conform to the ratio of 2:1 as per the requirement of chlor-alkali plants. ## 5.5 Sponge Iron India Ltd.

Sponge Iron India Ltd. (SIIL) was incorporated on 18-03-1975 with the objective of producing Sponge Iron of highest quality with maximum cost effectiveness and to develop new technology in the field of production of coal based sponge iron through continuous R&D efforts.

SIIL is a Schedule "C" CPSE under the administrative control of M/o Steel with 98.73% shareholding by the Govt. of India. Its Registered and Corporate Offices are at Hyderabad, Andhra Pradesh.

In compliance to the approval of the GOI for merger of SIIL with NMDC Limited.

### **Vision / Mission**

The Vision / Mission of the Company is to produce Sponge Iron of highest quality with maximum cost effectiveness and to develop new technologies in the field of production of coal based sponge iron, through continuous R&D efforts.

### **Industrial / Business Operations**

SIIL is involved in production and marketing of Sponge Iron with captive generation of power at its operating unit at Khammam, Andhra Pradesh. The physical performance of Company for last three years is given below:

Main Product	Units	2009-10	2008-09	2007-08
Sponge Iron	MT	31845	30489	43331

### **Strategic Issues**

Industrial environment is competitive for SIIL due to stiff competition from private Sponge Iron Plants. Non-availability of raw material and rise in input cost slowed down the pace of development in the sponge iron sector.

# SIIL has been merged with NMDC w.e.f 01.07.2010.

With the improved quality of iron ore and coal identification from NMDC, the operations of the company are likely to improve during 2010-11.

### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the opposite page.

The Company registered a decline of ₹8.87 crore in total income during 2009-10 which went down to ₹43.80 crore in 2009-10 from ₹52.67 crore during 2008-09. The net loss of the company correspondingly increased to ₹31.62 crore, an increase of ₹30.7 crore over the previous year. The main reasons for negative performance was drastic fall of average sales reaslisation of sponge iron due to recession of sponge iron market and reduction in production due to non availability of quality iron ore and high input cost of raw materials and high tax provisions.

195 PUBLIC ENTERPRISES SURVEY 2009-2010

### 12.14 Tyre Corporation of India Ltd.

Tyre Corporation of India Ltd. (TCIL) was incorporated on 24.02.1984 under the Companies Act 1956 when erstwhile M/s. Inchek Tyres Ltd. and M/s. National Rubber Manufactures Ltd. were nationalised by an ordinance dated 14.02.1984 with an objective to protect the employment of around 4000 employees and to ensure supply of automotive tyres to different STUs, Government Departments and Defence.

TCIL is a Schedule-'B' / takenover / BIFR / BRPSE referred CPSE in 'Consumer Goods' sector under the administrative control of M/o Heavy Industries and Public Enterprises, D/o Heavy Industry with 100% shareholding by the Government of India. Its Registered and Corporate offices are at Kolkata, West Bengal.

### **Vision / Mission**

The Vision / Mission of the company is to turnaround the company from a loss making to profit making company by financial restructuring and strategic alliance.

### **Industrial / Business Operations**

TCIL is engaged in manufacturing and marketing of automotive tyres through its single operating unit at Kankinara, West Bengal. However, the Company is not manufacturing own brand tyres since 1.4.2002. The brief detail of major jobbing work is as follows:

Major Products	Units	Production during (% Capacity Utilisation)		
		2009-10	2008-09	2007-08
(i) Automotive Tyres	MT	2092 (9)	9584 (41)	16859 (76)
(ii) Compound Mixing	MT			895

### **Strategic Issues**

BIFR have sanctioned the Revival Scheme vide their order dated 03.03.2010 in line with CCEA approval for cleaning the Balance Sheet to make the Net Worth position positive to attract the new entrepreneur. TCIL's Disinvestment of ownership Bill 2007 have been passed from both the houses of the Parliament. The process of cleaning the Balance Sheet for ultimate disinvestment / outright sale has been affected due to denial of RoC / MCA for waiver of Fees for increase in authorised Capital, contrary to BIFR sanction scheme. Company has already represented against the same.

### **Performance Highlights**

The operational performance of the company along with performance indicators and selected financial ratios during the period 2007-08 to 2009-10 can be seen on the corresponding page.

The Company registered a decline of ₹ 19.89 crore in total income during 2009-10 which went down to ₹ 9.36 crore in 2009-10 from ₹ 29.25 crore during 2008-09. The net loss of the company during the year stood at ₹14.67 crore, a reduction of ₹ 555.82 crore over the previous year (the company had shown a profit of ₹541.15 crores last year due to Net Extra Ordinary Adjustments of ₹548.82 crores).

Production performance and capacity utilization was very low due to non-availability of jobbing order. The company is doing 100% jobbing work w.e.f. 1.4.2002 for other tyre manufactures like M/s. JKTIL, Ceat Limited and Birla Tyres Limited in the absence of working capital support from

banking system due to its reference to BIFR. It also suffered set back due to global economic / slowdown. Company could not secure any jobbing order almost upto January, 2010. Plant remained idle for nearly 8 months during the financial year. Thus company had to incur cash loss of ₹8.58 crore to absorb the unavoidable fixed cost. No budgetary support however was sought to meet the liabilities & company met its obligation through the available resource.

PUBLIC ENTERPRISES SURVEY 2009-2010

# 20.9 Utkal Ashok Hotel Corporation Ltd.

Utkal Ashok Hotel Corp. Ltd. (UAHCL) was incorporated in 1983 with the objective to promote domestic tourism and to have close coordination between the center and the state efforts to disperse benefits of tourism in the State of Orissa and to relieve the direct strains on budgetary resources of the center and state by eliminating duplicate efforts.

UAHCL is an un-categorised sick CPSE in Tourist Services sector under the administrative control of M/o Tourism. Its Registered and Corporate offices are at Puri, Orissa. UAHCL is a subsidiary of ITDC Ltd. which holds 98% of its equity.

### **Industrial / Business Operations**

UAHCL was providing services in the field of Hotel business (accommodation and catering) through its single hotel namely Hotel Nilachal Ashok at Puri, Orissa. However, since 31.3.2004 the Hotel Nilachal Ashok has been closed.

### **Strategic Issues**

The company has decided to lease out the Hotel property for 40 years with a one time non-refundable upfront payment of ₹8.82 crore and with a Minimum Guaranteed Annual Lease Premium of ₹26.00 lakhs extendable upto ₹32.03 lakhs subject to a maximum of 13.5% of annual gross turnover from the leased property of respective years. However, the annual wage bill as on 31-3-2010 was ₹70 lakhs and as such the lease amount would not be sufficient for meeting the liabilities of the company. The auditor of the company has raised doubts on the company's ability to continue as a going concern.

### **Performance Highlights**
