As you would be aware that the climate is not changing, it has changed, mainly due to use of energy and knowingly or unknowingly energy is misused, overused and inefficiently used leading to climate change. Therefore, all users of energy should become Energy Literate. In this context, the Department of Public Enterprises (DPE) is supporting the initiative of Energy Swaraj Foundation (ESF) for Energy Literacy Training which imparts training about energy generation, consumption and its impact on the environment and guides on steps to reduce energy needs as well as increasing usage of solar energy 100%. The training consists of 12 modules of about 15 minutes each and upon successful completion of training, a certificate of Energy Literacy with the logo of DPE and concerned CPSE will be provided to successful candidates. All organizations and individuals are requested to undergo the above training by registering using the following link.
